Technical Note of NILIM
No. 1071 April 2019

下水道研究部 下水処理研究室

The technical document about improving the efficiency of wastewater treatment systems.

Wastewater and Sludge Management Division
Water Quality Control Department

概要

本技術資料は、「下水処理場の既存施設能力を活用した汚水処理システムの効率化に関する研究」の成果を踏まえ、地方公共団体が持続可能な汚水処理システム構築に向けた概略検討を行う際の有益な技術資料として研究成果をとりまとめたものである。

キーワート::下水処理場、汚水処理施設、人口減少、稼働率、統廃合

Synopsis

The technical document about improving the efficiency of wastewater treatment systems, which is based on "research on improving the efficiency of wastewater treatment systems by utilizing the capacity of sewerage facilities", was published in order to support the local governments.

Key Words : Sewage treatment plant, Wastewater treatment facility, Population declining, Operating rate,
Integration and decommission
